[PROJECT] DEBUTING - DOCUMENT

Around the time that I 'OFFICIALLY BEGAN THIS PROJECT' Apple Released iOS 12 - As both my 2 1/2 yo abandoned Red iPhone which I used daily to record videos such as this

link link link  
AND my grandmother's hand-me-down from my mother sat in a dusty downtown shop awaiting payment + retrieval from me for repairs of 'mysterious origin!'

They implemented many of the core ideas I had been throwing around regarding the Red Panda version of this project w/ some suspicious

Done  
AK

TODAY I see they're about 15hrs deep in a sizable organic campaign, so let's catch up with...

Twitter is on fire Meta announces they're introducing 'AI Profiles' into their services, and I'm finally ready to officially begin publishing content + make proclamation and publicly committing to <sup>to</sup> expanding of the development of this project

It is, by coincidence, that this just so happens to coincide with a New Year - A fact that would be redundant to me as I sit here 26 days away from...  
...an equally
